To whom it may concern:

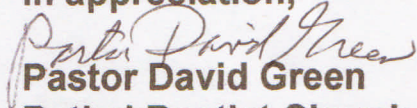

I want to thank you for promptly responding to the electrical problem our church had. The technician and troubleshooter named David did a great job tracking down the problem and fixing it. He was very professional and courteous.

In my opinion you sent the right man for the job. Rest assured we will be recommending you to our congregation and friends and relatives for any electrical needs they may have.

Thanks again for responding to a needy problem. We have other meetings going on through the week that needed lights and air conditioning.

We also appreciate your affordable cost for labor and parts. We felt like we were treated fairly and honestly.

In appreciation,

Pastor David Green
