

Hi David,

Thank you for coming out to troubleshoot and repair our outdoor electrical problem. After calling so many places, we found your company to be the most earnest and up-front. As soon as I called and spoke to Sean, his honesty and confidence put my mind at ease. And when you came for the appointment, we saw how thorough and professional you were, we immediately knew we made the right choice.

You took the time and effort to correctly diagnose the problem, resolve it, and explained to us clearly. We couldn't be happier with your service and your rates. We will definitely choose D&L Electrical for any of our electrical needs in the future and gladly refer others to you.

Sincerely,

Desmond & Jennifer
